MEET THE *Artists*

Classic American coins were designed by some of the most renowned artists of the time. Augustus St. Gaudens, Victor D. Brenner & others were already famous when they were commissioned to produce some of the most beautiful coins of their respective eras. Others, like Barber & Morgan, made their mark specifically as Mint engravers.

Check out a wide assortment of numismatic 'masterpieces' within this August issue of *Rare Coin Monthly!*

1921 Peace Dollars

PCGS. MS-64

Issued as a commemorative to celebrate the end of World War I. Anthony de Francisci's beautiful design was in such high relief that it was deemed impractical and the relief was lowered for 1922 to 1935. We have high quality examples of this one year High Relief 'type' to offer this month at a sale price.

Only \$799.00 Each #204046

1909-S VDB Lincoln Cents

PCGS. MS-65 RB

The public was outraged that Victor D. Brenner had the vanity to prominently display his initials on the reverse of the new Lincoln Cent. They were removed in early 1909 and an iconic American Numismatic rarity was born. We offer beautiful examples, with considerable original mint red intact, at a sale price.

THIRD PARTY GRADED COINS & CURRENCY

The coin market is speculative and unregulated. Many areas of numismatics lend themselves to third party grading and authentication. Such certification does not eliminate all risks associated with the grading of coins and currency. Grading is a subjective matter and opinions as to the grade of a certified or uncertified item can differ. Items graded by the various services carry the guarantees, if any, of that particular service. Securing performance on any such guarantee is strictly between the purchaser and the particular grading service. Coast to Coast may or may not agree with the grade assigned by the particular grading service. Buyer should be aware that grading standards of coins have changed from time to time in the past and may do so again in the future.

Flying Eagle Cents

- 1856. PCGS. MS-62. Snow-3 variety which were the 'original' strikes from 1856 distributed to officials to show the new small cent design.
